

# Asset Value Plan

Finance your choice of audio-visual equipment through Smart Presentations Asset Value Plan

It is hardly surprising to know that there is so much interest in leasing audio-visual equipment when you consider the benefits detailed below. Even in times of fluctuating rates, leasing can still prove to be a cost effective method of financing your choice of presentation equipment.

### Budget more effectively

By spreading the cost over 1,2,3,4 or 5 years you can budget for one easy fixed cost for the period, which can include the elements of the project such as cabling and installation costs.

### Be totally flexible - payments can match the cash flow of your business

Payments can be made monthly, quarterly or annually to suit your cash flow.

### Add to the solution as requirements change

If your business grows and requirements change during the period of the lease you can add office equipment to the agreement at any time.

### Preserve borrowing power and invest funds elsewhere

Other lines of credit from your bank or other finance houses remain intact for other credit needs. In addition, leasing can ease the strain on your working capital and provide finance with no deposit therefore leaving you with more reserves to invest in profit making activities.

### Allocate payments from a rental budget as opposed to a capital budget

Make the most of your budget by spreading the cost over 3 or 5 years and acquire the solution that meets your needs fully, rather than that which your budget dictates.

### Take the tax advantages

Leasing, unlike other forms of finance such as bank loans, is fully allowable against tax.

This 100% allowance on payments makes leasing one of the most tax efficient methods of acquiring equipment.

### Finance the whole system

As audio visual and presentation leasing specialists, we can include all the intangible elements of a system in the lease, such as software, training and installation.

### Budget Calculator

The table below provides a budget monthly repayment for 3 and 5 year agreements against three examples of capital equipment cost. Please speak with one of our finance representatives to receive an accurate proposal against your requirements.

 Asset Value Plan	Capital Cost £ (exc. VAT)	*Monthly (3 Year)	Monthly (5 Year)
<b>Example 1</b>	£5,000.00	£165.00	£105.00
<b>Example 2</b>	£7,500.00	£247.50	£157.50
<b>Example 3</b>	£10,000.00	£330.00	£210.00

\* Lease Rental based on 36 month agreement (3+33 profile) + bank admin fee, and subject to status. The above prices are exclusive of VAT.
