The SMART Room System has installed Skype for Business software that allows you to start a meeting and connect with other individuals or meeting rooms with a single tap on the console or the interactive flat panel.

You can write or draw on the interactive displays using the whiteboard feature, present a Microsoft PowerPoint® slide show, connect a laptop to share its screen and share your content with connected individuals and meeting rooms in real time.

The SMART Room System™ for Microsoft® Skype for Business® features SMART Board™ commercial interactive flat displays with Proximity Detection that turn on when you walk into the room, wall mounts, an appliance PC, a table-top 11.6" touchscreen administrative console, a high-definition camera with 109 degree field of view, two table microphones and integrated speakers.
